

WALL STREET MEN MORE CONFIDENT

A Strong Tone Exhibited in the Early Dealings.

Sugar Refining Declines on Profit- Taking Sales.

Metropolitan Shares Advance, With Manhattan and Brooklyn Rapid Transit Showing Firmness.

New York, June 8.—Comparatively small changes appeared in the early dealings in the general stock market, though the underlying tone was one of great strength. The London market was reported weak in all its divisions, but very little attention was paid to this circumstance or to the dealings here for foreign account.

A feature of the dealings at the opening was Chicago Terminal preferred, which rose rapidly, later losing a part of its advance. Metropolitan Street Railway also advanced smartly, and Manhattan and Brooklyn Rapid Transit were firm. Sugar Refining was active and feverish, and the stock declined sharply after the opening on profit taking sales. American Steel and Wire was dull and uncertain. International Industrial was a strong feature of the industrial quarter.

Fractional declines were noted in the granger shares after a firm opening. The trading was in fair volume and was again marked by more confidence than has been shown in some weeks.

The stock market was active and strong during the morning hours today, and there was every appearance of good buying in all the leading issues. Prices went up from a fraction to three points or more in the first two hours, and showed no signs of weakness at any time. This strength, following the advance of yesterday, was a most cheerful augury to the bulls, who had more or less looked for a recession immediately on the opening in keeping with the traders' tactics of the past few weeks or more. It could not be said with any certainty, of course, that the advance would be sustained and continued, but the outlook was the most hopeful that has been seen for some time. The market is almost always put up just prior to the July distributions of dividends and interest.

One of the best signs of the renewed interest of the leaders of the market was the buying of Brooklyn Rapid Transit by Flower and other prominent interests this morning. The stock was advanced steadily to above 114 in the first hour and showed every indication of going higher at 11. It is said that prominent people not heretofore interested in Brooklyn have been buying the stock heavily for investment during the past three or four days and that the stock has been taken out of the market. The bears were prominent in their covering operations in this stock this morning. Metropolitan and Manhattan were also well bought and they both advanced rapidly during the early trading.

The other stocks that have occupied the prominent positions in the market during the past week, Sugar and the Steel issues, American Steel and Wire, common, which were all strong with the exception of what was sold off in the early trading, much as it was yesterday. Sugar was steady around

ACTIVITY IN RECRUITING.

Satisfactory Progress Reported From the Various Stations. War Department Officials are highly gratified over the returns of the recruiting stations throughout the country. Reports received at the department show that the enlistment of recruits is progressing rapidly and satisfactorily. It is estimated that to raise the Regular Army to the full war strength have been recruited into the service and within the past week many of the recruiting stations have been destroyed and the recruiting officers ordered to other duty.

Notwithstanding that many recruits are on hand for service in the regular establishments it takes some time to equip them and get them in shape for campaigning. This is particularly true of men to be sent to the Philippines. Hundreds of recruits are now at Presidio, San Francisco, where they have been stationed for weeks past. At other places in the country men are quartered awaiting orders to San Francisco or to other points of departure.

Although the Nineteenth Infantry has now 719 men, sufficient recruits are on hand in the country to raise it to its full fighting strength of over 1,000 men, but they must be gathered together and sent to Camp Meade and there fitted out and put in shape for service. This will take several weeks, but the regiment will be ready to leave for Manila in a few days.

The Hancock is to leave Manila this week with a regiment of volunteers, and will not reach San Francisco about a month, but will then require a week or ten days to overhaul and repair the vessel, and it is thought at the War Department that the Nineteenth Infantry will depart for the Philippines about the latter part of July or first of August.

The War Department has received reports from regimental commanders that many of the recruits enlisted are not up to the standard of the regular army. Some cases are disqualified for service in the tropics. Secretary Alger some time ago issued instructions directing examining surgeons to be more careful in the examination of recruits and to reject those who are physically disqualified. All cases of physical deficiency will be reported promptly for action of the War Department.

The board of appeal of examining surgeons, consisting of Major Edward B. Mosely, surgeon; Acting Assistant Surgeon Charles N. Barney, and Acting Assistant Surgeon Edwin P. Hayward.
